Send.Receive.Connect.

Your Mailing Assistant

Automate your document processing with an intuitive, flexible folder-inserter

Companies are always looking for more efficient, productive and secure ways of streamlining the processing of their business-critical communications. Ideally suited for businesses that are searching for a solution to automate a wide variety of document sizes and types, the DS-64i folder-inserter will meet all company communication needs with ease. The DS-64i comes with optional CIS barcode reading capabilities to ensure increased customer security and a professional appearance for variable-page jobs. With an array of feeder options, your folder-inserting jobs will be met with the flexibility and convenience you are looking for, for all document processing.

Automating Your Document Processes

As a connected machine, the DS-64i is compatible with Neopost's Output Management Software (OMS), which brings an added value in communication accuracy, splitting jobs between physical and digital mail and incorporating inserts to selected audiences to further target existing or potential customers.

OMS works seamlessly with the DS-64i to optimize your outbound document workflow, giving your customers a professional presentation of their documents.

Expand Your Mailing Process

To take your growing business further, the DS-64i is available for upgrade with a Premium Package license key. With the Premium Package, you will enjoy increased envelop speed, an increased folding capacity, an increased MultiSheet capacity per feeder and an increased monthly maximum volume. Your DS-64i can be upgraded at any time.

Safeguard Documents

Neopost's exclusive CIS scanning device is able to read BCR 1D & 2D, OMR and OCR; regardless of their location on the page. CIS ensures that all multi-page jobs will be joined together in the correct order and sent to the correct addressee, giving increased communication security.

DS-64i

1. High-Capacity Vertical Stacker
Able to hold up to 325 envelopes, the vertical stacker guarantees easy envelop unloading and print order preservation for all jobs.

2. Touchscreen Display
The DS-64i's easy to use 7-inch touchscreen and interface make machine operation simple and intuitive.

3. CIS Scanning
Full page CIS scanning capabilities with the ability to read BCR 1D & 2D, OMR and OCR provides added security and ensures correct page order for all enclosed documents.

4. Feeders
Different feeder configurations with a special short tray and maxi feeder for inserts provides an increased production speed and capacity.

Business Impact

Revenue Growth
Maximize you customer relations by internalizing your communications

Customer Engagement
Target specific audiences with inserts to expand 1:1 customer engagement

Risk Mitigation
Increased customer security & regulatory compliant

Expense Control
Increased speed, reliability and reduced operating costs when automating mailing processes
