CEO Message

The Global Mailing Business Partner

President Jong Koo Lee

Welcome to WELLTEC SYSTEM

Copier and printer finisher development experience led Welltec System's successful development of an office equipment in 1999 that can produce ready-to-mail which only could be done through production facilities in the past. Welltec System is the No.1 desktop pressure sealer company in the world, exporting products to over 30 countries including Europe and North America.

Welltec System supplies both machineries producing one-piece mailers such as statements and envelope inserting solution which can insert multiple sheets to a single envelope by cooperating with Pitney Bowes, the world leading company in the envelope inserting field.

In 2012, Welltec System developed a Shield Fax for the 18th Presidential Election in South Korea which enabled voting on a ship– it was the first case in the election history.

Welltec System brought mail service efficiency – reduction of time and cost - to the mailing industry with our own technology. By achieving market share of 85% in Asia and 75% in Europe, Welltec System proved excellence of mailing automation technology to the world markets.

Our life styles change in a speed beyond imagination thanks to the rapid progress of IT. Technology and application of existing automation equipment need to be changed and there are more business opportunities being created accordingly.

The mailing market size is gradually decreasing all over the world on the days at the moment Welltec System has been focusing on the mailing automation market for 14 years and recently has been investing aggressively on mail or parcel metering for past 4 years. Parcel delivery service has been derived from mail delivery process. Welltec System is planning to expand business to parcel automation sector on the base of mailing market experience and will introduce the best solution tied with advanced IT technology soon.

Signed by President JK Lee

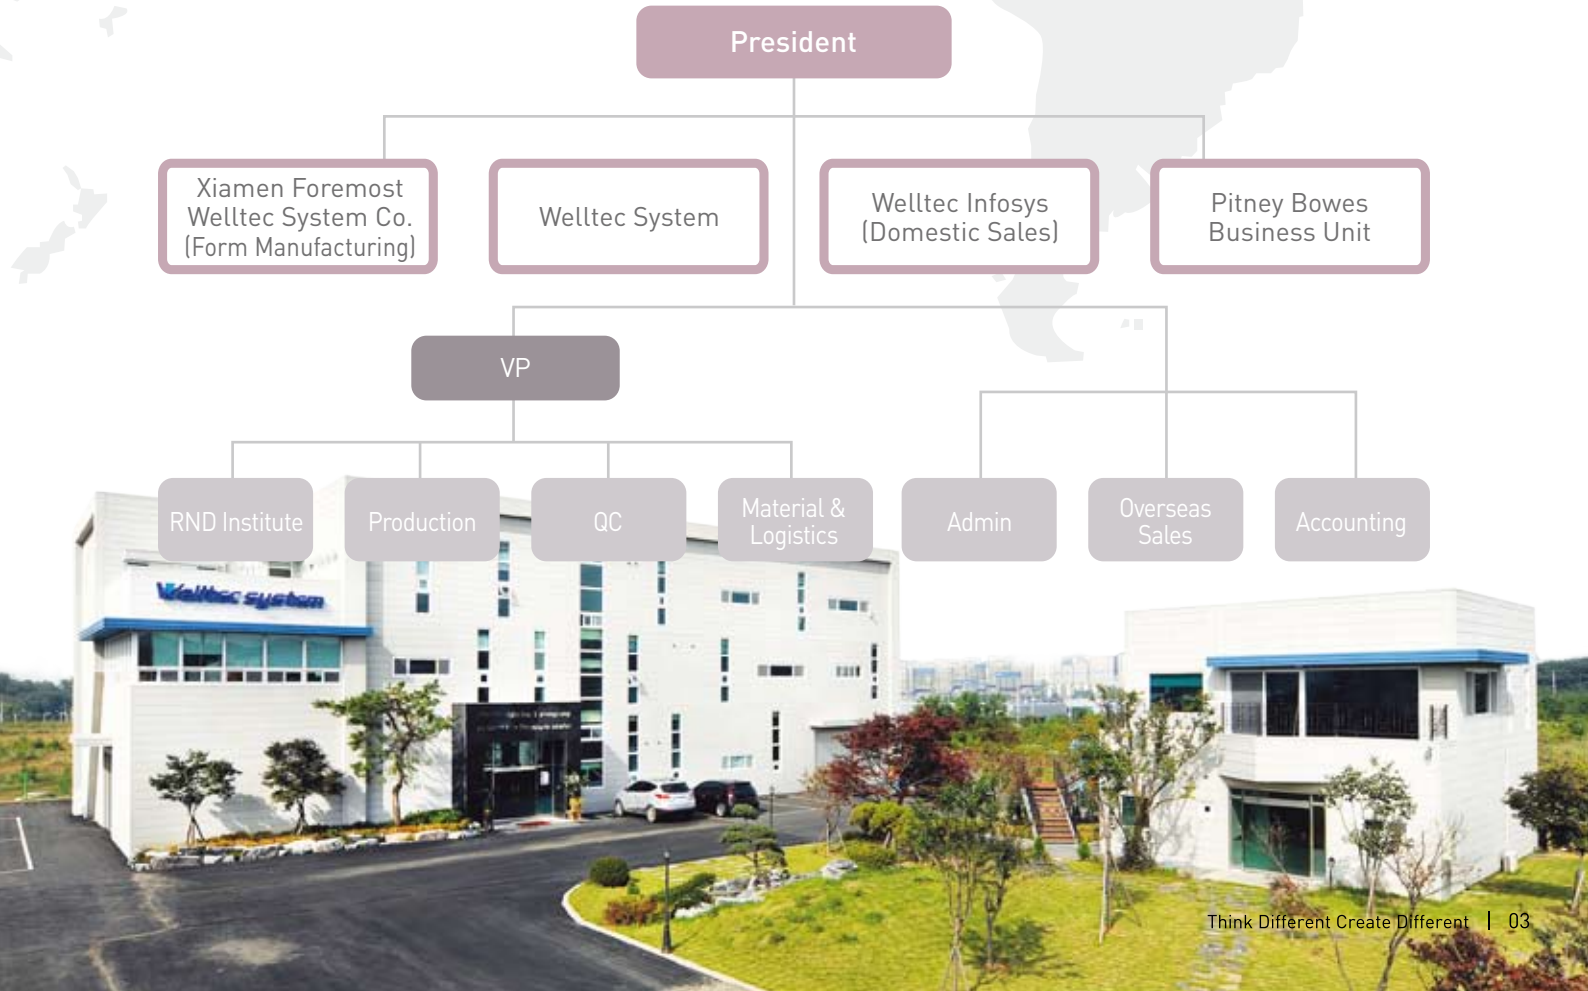
Organization



Standalone - Low Volume

Economic Desktop Pressure Sealer

Efficient solution for your office mailing job

Officemate 2D

→ Economical
→ Essential
→ Environmental

Officemate 2D is a real office-friendly pressure sealer with high sealing quality and low noise level. It is capable of processing 2,000 sheets per hour.

- **Perfect Sealing Quality & Extremely Low Noise Level**
  Officemate 2D has the most advanced pressure sealing technology (international patent) with its lightweight, excellent sealing quality and low noise level which makes office environment decent.
- **Easy Maintenance Structure**
  With easy maintenance as remarkable features of Welltec System pressure sealers, Officemate 2D offers you new concept of convenience.
- **Excellent Folding Quality**
  Excellent folding quality even with plain papers based on Welltec System's most advanced technology.
- **Compact and Dynamic Design**
  With differentiated technology, dynamic design and remarkably improved performances, Officemate 2D enables you to strengthen your business.

Specifications

Form Size	A4 / Letter / *Legal (option)
Input Tray	Up to 150 sheets (100gsm)
Speed	2,000 sheets per hour (A4)
Fold Type	Z, C, V, Double, 14" uneven Z & C fold
Noise Level	Less than 45db
Duty Cycle	20,000 sheets per month
Weight	22kg
Dimensions	320 x 390 x 280mm (WxLxH)

Officemate 3D

→ Economical
→ Essential
→ Environmental

Officemate 3D is a real office-friendly pressure sealer with high sealing quality and low noise level. It is capable of processing 3,000 sheets per hour.

- **Perfect Sealing Quality & Low Noise Level.**
  Perfect for any office environment.
  Officemate 3D is based on Officemate 2D tried and tested technology. It benefits from the same high sealing quality and low noise level.
- **Auto / Manual Start Mode**
  Can automatically process small batches of forms and then pause so operator can remove a precise number of sealed forms.
- **Double In-feed Detection**
  Officemate 3D has double in-feed detection fitted as standard. In the unlikely event of a double feed, the machine detects it and automatically stops operation to prevent a paper jam.
- **Total/Batch Counter**
  You can check the total counter and adjust the batch counter through the display menu.
- **Information Display Panel**
  User-friendly menu provides you all the information you need.

Specifications

Form Size	A4 / Letter / *Legal (option)
Input Tray	Up to 150 sheets (100gsm)
Speed	3,000 sheets per hour (A4)
Fold Type	Z, C, V, Double, 14" uneven Z & C fold
Batch Counter	Yes
Total Counter	Yes
Other Functions	Auto restart, Double in-feed detection, Information display
Noise Level	Less than 45db
Duty Cycle	30,000 sheets per month
Weight	22kg
Dimensions	320 x 390 x 280mm (WxLxH)

Standalone - Mid Volume

Best Selling Desktop Pressure Sealer

Reliable solution for your moderate mailing job

Postmate 5

Postmate 5 is a user-friendly and simple desktop pressure sealer. It provides the slide-out folding unit for a easy maintenance and its manual feeder allows single form processing. Postmate 5 is ideal for small a mid-volume customers.

01 Unique Folding Drum
Form size and folding positions are easy to adjust and can be set in seconds.

02 Easy Access
Folding unit slides out on glides to allow easy access to the press rollers for maintenance.

03 Manual Feeder
A simple manual feeder allows the processing of single damaged forms.

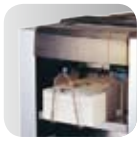
04 Jam Free Press Roller
Reverse rolling system on Postmate 5 automatically reverses direction and kicks back any forms jammed in the press rollers. An operator doesn't have to use a tool to clear the jam.

Specifications

Form Size	A4 / Letter / *Legal (option)
Input Tray	150 sheets
Speed	4,200 sheets per hour
Paper Weight	60-120gsm
Fold Type	Z, C, V & Double
Output Capacity	200 sheets
Manual Feeder	Yes
Display	3 Digital Characters
Duty Cycle	50,000 sheets per month
Weight	36kg
Dimensions	430 x 400 x 260mm (WxLxH)

Postmate 3 M Plus

Postmate 3 is a dependable and reliable mid-range desktop pressure sealer. Up to 1,400 sheets can be loaded into the feeder and processes at speeds up to 5,600 sheets per hour. It provides Superior FRR (Friction Reverse Roller) feeding system and user-friendly operator's control panel.



01 Large Capacity In-feed Tray
Easy to load, auto-lift in-feed hopper holds up to 1,400 pressure seal forms for time-saving throughput processing.

02 Friction Reverse Roller (FRR)
Unique FRR system automatically detects, separates and feeds doubles without any operator intervention for productivity increase.

03 Auto-slide Conveyor / Vertical Stacker (Option)
Conveyor extends automatically dependent upon the number of forms being processed. Easily stacks up to 600/700 processed documents.

04 Easy & User-Friendly Interface
Includes an easy-to-use auto stop and auto restart function, electronic thickness detection and batch counter.

Specifications

Form Size	A4 / Letter / Legal
Input Tray	Up to 1,400 sheets
Speed	5,600 sheets per hour
Paper Weight	60-120gsm
Infeed Type	Friction Reverse Roller with cooling fan
Fold Type	Z, C, V & Double
Batch Counter	Auto start for job separation
Double Detection	Automatically detects double feed
Stacker	Auto Slide Conveyor (600 sheets) Vertical Stacker (700 sheets)
Dual Mode	★Dual-purpose (in-line & standalone)
Duty Cycle	125,000 sheets per month
Weight	48kg
Dimensions	415 x 600 x 385mm (WxLxH)

Standalone - High Volume

Production Desktop Pressure Sealer

Productive solution for your massive mailing job

Postmate 6

Posmate 6 is an advanced heavy duty desktop pressure sealer. It provides Superior FRR (Friction Reverse Roller) with a cooling system. Up to 1,400 sheets can be loaded in the feeder and processes at speeds up to 9,000 sheets per hour. It also provides great sealing quality with 4 press rollers.

01 Large Infeed Capacity
Ease to load, auto-lift in-feed hopper holds up to 1,400 sheets for time-saving throughput processing.

02 Friction Reverse Roller (FRR) with a Cooling System
Friction Reverse Roller system with a cooling fan allows Postmete 6 to smoothly operate at fast speeds.

03 4 Sealing Rollers
Two pairs of sealing rollers enhances sealing quality at speeds up to 9,000 sheets per hour.

04 Easy Maintenance & Heavy Duty
Slide-out type fold-cassette offers easy maintenance and enhanced parts and life cycle on rollers allow Postmate 6 to operate up to 300,000 sheets per month.

05 Adjustable Speed
Adjustable speed allows an operator to work at a desired speed level.

Specifications

Form Size	A4 / Letter / Legal
Input Tray	Up to 1,400 sheets
Speed	Up to 9,000 sheets per hour (5k, 6k, 7k, 9k)
Paper Weight	60-120gsm
Infeed Type	Friction Reverse Roller with cooling fan
Manual Feeder	Yes
Fold Type	Z, C, V & Double
Batch Counter	Auto start for job separation
Double Detection	Automatically detects double feeds
Jam Free	Reverses the rollers and clears any jam
Stackers	Auto Slide Conveyor (600 sheets) Vertical Stacker (700 sheets)
Dual Mode	★Dual-purpose (in-line & standalone)
Duty Cycle	300,000 sheets per month
Weight	60kg (with conveyor)
Dimensions	415 x 600 x 385mm (WxLxH) / without conveyor

Postmate 6HD

Postmate 6HD is an advanced heavy duty desktop pressure sealer. It provides Superior FRR (Friction Reverse Roller) with a cooling system. Up to 2,500 sheets can be loaded in the feeder and processes at speeds up to 13,000 sheets per hour. It also provides high sealing quality with 4 solid press rollers.

01 2,500 Sheets Infeed Capacity
Easy-to-load, auto-lift in-feed hopper holds up to 2,500 sheets for time-saving throughput processing.

02 Friction Reverse Roller (FRR) with a Cooling System
Friction Reverse Roller system with a cooling fan allows Postmate 6HD to smoothly operate at fast speeds.

03 High Performance 4 Solid Sealing Rollers
Two pairs of SOLID sealing rollers bring superior sealing quality at speeds up to 13,000 sheets per hour.

04 Heavy Duty Cycle
Enhanced parts and life cycle on rollers allow Postmate 6HD to operate up to 400,000 sheets per month.

05 Adjustable Speed
Adjustable speed allows an operator to work at a desired speed level.

Specifications

Form Size	A4 / Letter / Legal
Input tray	Up to 2,500 sheets
Speed	Up to 13,000 sheets per hour (7k, 9k, 11k, 13k)
Paper Weight	60-120gsm
Infeed Type	Friction Reverse Roller with cooling fan
Manual Feeder	Yes
Fold Type	Z, C, V & Double
Batch Counter	Auto start for job separation
Double Detection	Automatically detects double feeds
Jam Free	Reverses the rollers and clears any jam
Stacker	Auto Slide Conveyor (600 sheets) Vertical Stacker (700 sheets)
Duty Cycle	400,000 sheets per month
Weight	103kg (with conveyor)
Dimensions	415 x 600 x 610mm (WxLxH) / without conveyor

Inline - Low/Mid Volume

Reliable print-to-mail Pressure Sealer

Do all printing, folding and sealing processes at one go!!

Mailfinisher 3000D

New Inline Solution compatible with various kind of printers. Mailfinisher 3000D (MF3000D) is designed for low volume operators needing high quality sealing while operating inline with laser printers. MF3000D can be connected with OKI (Color), HP and Kyocera (B/W) printers. MF3000D is based on OM3D technology benefits from same high sealing quality and low noise level.

- **Perfect Sealing Quality & Extremely Low Noise Level for any office environment**
  Mailfinisher 3000D is based on the Officemate 3D tried and tested technology. It benefits from same high sealing quality and low noise level.
- **Printer Compatibility**
  MF3000D is compatible with various kind of printers. See specifications for details.
- **Double In-feed Detection**
  MF3000D has double in-feed detection fitted as standard. In the unlikely event of double feed, the machine detects it and automatically stops operation to prevent a paper jam.
- **Total/Batch Counter**
  You can check the total counter and adjust the batch counter through the display menu.
- **Information Display Panel**
  User-friendly menu provides you all the information you need.

Specifications

Form Size	A4 / Letter / *Legal (option)
Input Tray	500/1,000 sheets (Up to printer)
Speed	34/60 ppm (up to printer)
Printer Compatibility	OKI (C711), Kyocera (FS4300), HP M601/602/603
Fold Type	Z, C, V, Double, 14" uneven Z & C fold
Batch Counter	Yes
Double In-feed Detection	Yes
Total Counter	Yes
Manual Feed	Yes
Other Functions	Information Display
Communication(option)	OKI (X), Kyocera (O), HP (O)
Duty Cycle	30,000 sheets per month
Weight	22kg (without printer)
Dimensions	320 X 390 X 280mm [WXLXH] / [excluding printer]

Mailfinisher 4000/4350

Mailfinisher 4000/4350 is a highly intelligent print-to-mail pressure sealer. It eliminates the added task of unloading forms from the printer and loading them in to the pressure sealer. Printer Communication kit is included (Mailfinisher 4350 only)

01 Automatic By-Pass Tray
An integrated imaging system detects unrecognized papers and double feeds, diverting them into the by-pass tray.

02 Manual Feeder
A simple manual feeder allows the processing of single, damaged forms.

03 Unique Folding Drum & Easy Access
Folding unit slides out on glides to allow easy access to the press rollers for maintenance.

04 Pro Package and Security Package
Pro Package: Cabinet A + Extension Stacker 350 + Slide Mountbase 4000
Security Package: By-pass lock tray + Security cover

05 Printer Communication
Communication between the printer and the Mailfinisher allows the printer to stop printing in the event of a jam in the Mailfinisher.

Specifications

Form Size	A4 / Letter / *Legal (option)
Input Tray	500 sheets * Extra feeder (option)
Speed	43/50/60 ppm
Printer Compatibility	HP M601/602/603
Fold Type	Z, C, V & Double
Paper Weight	60-120gsm
By-pass Tray	Avoids reprints of doubles
Batch Counter	Digital batch counter
Double Detection	Detects thickness of every single form
Output Capacity	200 sheets, optional 350/700 stacker
Printer Communication	MF4000 (X), MF4350 (O)
Duty Cycle	50,000 sheets per month
Weight	42kg (without printer)
Dimensions	580 x 400 x 380mm (WxLxH) / (excluding printer)

Inline – Production

AFS print-to-mail Pressure Sealer

Do all printing, folding and sealing processes in one go!!

Mailfinisher 120AT Plus

Developed to be integrated with Konica Minolta bizhub PRO 1052/1250 and PRESS C6000/7000/8000

Mailfinisher 120EL

Developed to be integrated with Kyocera TASKalfa 8000i/6550i

MF120A Plus

Advanced instant mail production solution with fast, easy, reliable and secure operations with modern and ecological instant mail production lines. High speed print-to-mail solution in one step. Offering proven in-line mail processing technology, enhanced durability and simple maintenance operations bring drastic cost down.

MF120E

AFS (Common Features)

01 Angle Feeding System (AFS)
Turns Landscape output to Portrait and forwards it to pressure sealing unit to enable automatic print-and-seal operation. (pre-installed at factory)

02 Double-feed Bypassing
A digital sensor detects and diverts double-fed sheets into Bypass Tray. Mail production continues smoothly for the next documents with no interruption.

03 Unique Sealing Mechanism
Two pairs of sealing rollers and Angle Sealing technology bring low noise level and high sealing quality.

04 Multiple Security Locks
Multiple security locks only allow authorized employees to access private data on documents while processing.

05 Print Only Mode
Can simply use a print-only-mode without complication.

Specifications

Intelligent print-to-mail Pressure Sealer

Do all printing, folding and sealing processes in one go!!

Mailfinisher 9500

Mailfinisher 9500 is a heavy duty print-to-mail pressure sealer which brings various security solutions. It provides excellent sealing quality with 2 pairs of press rollers and is capable of processing 500,000 forms per month.

01 **Auto Slide Conveyor enables Continuous Jobs**
Conveyor extends automatically and stacks up to 600 sheets and its quick & easy accessibility to stacked forms being processed enables continuous job processing.

02 **Double Detect and By-pass**
An integrated imaging system detects unrecognized papers and double feed, diverting them into the by-pass tray.

03 **Heavy Duty Cycle up to 500,000 Sheets per Month**
Enhanced mechanism provides easy & full access to each unit of the Mailfinisher 9500 & enables processing of 500,000 sheets per month.

04 **Advanced Sealing System**
Uniquely designed sealing system guarantees quiet & smooth job processing and great sealing performance & quality.

Specifications

Form Size	A4 / Letter / *Legal (option)
Input Tray	2,500 sheets
Speed	3,720 sheets per hour (62ppm)
Printer Compatibility	HP M601/602/603
Fold Type	Z, C, V & Double
Paper Weight	80-120gsm

Stacker Option

Stacker options for both standalone and inline pressure sealers

Slide Conveyor

Capacity: Max 600 sheets

Auto Slide Conveyor can stack up to 600 sheets by automatic slide method.

- Option for PM3, PM6 and PM6HD
- Standard for MF9500

Vertical Stacker

Capacity: Max 700 sheets

Innovative, powerful and compact sequence stacker which brings efficient space usage with adjustable speed control.

- Option for PM3, PM6 and PM6HD
- Additional Option: Standing pile and cabinet

Long Conveyor

Capacity: Max 1,500 sheets

A comprehensive stacker for volume mailers with expanded capacity and systematic mechanism with four sensors and three rollers.

- Option for PM6, PM6HD, MF9500, MF120A Plus, MF120E, Inserter, Address Printer and etc.
- Standard for MF120AL Plus, MF120EL

Tower Stacker I

Capacity: Max 1,800 sheets

Tower Stacker II

Capacity: Max 2,700 sheets

Adaptable Tower Stacker integrates three built-in conveyors allowing intelligent handling of large instant mailing jobs in a small space.

- Tower Stacker I: Slide Conveyor X 3
- Tower Stacker II: Slide Conveyor X 2 + Long Conveyor X 1

- Option for MF120A Plus and MF120E
- Additional Option: 2D Barcode Camera

Docu-Sealer

Low Cost Security Seal and Mail Solution

For pay-slip and security documents!

Letter Opener

Versatile Desktop Letter Opener

Auto feeding & cutting various envelopes

VS1 VS2

Makes single-sheet documents containing private information to be folded and securely-sealed in a second.

Features

01 Compact
Half the size of OM2D, good to be on a table or a desk

02 Light
One of the lightest pressure sealers in the market

03 Easy Delivery
Adequate for online order and postal delivery

04 Self and Fast Installation
Neither training nor engineer support is required

05 Easy Jam Removal
Use Jam Remove Handle or a coin to Jam Remove Hub

06 Easy Maintenance
Only clean pad base and rollers from time to time

07 Safety Measures
Micro Switch prevents unaware operation

Letter Opener 3010 offers high productivity and efficiency at speeds up to 18,000 envelopes per hour. As it does not remove any part of the envelope there is no waste which makes the operation clean, easy and trouble free.

01 Chadless
No cutting to get in the way of feeding or opening.

02 Efficient & Easy to Operate
Opens mixed sizes of envelopes automatically.

03 No Waste Disposal
As the opener does not have to any part of the envelope there is no waste which makes the operation clean, easy and trouble free.

04 Low Cost
A machine that pays for itself even for low-volume users.
